

Although I no longer live in Indiana, I still own property there and plan to return in the future. I oppose very strongly having Indiana's Telephone Privacy Act weakened by the CBA's. As the owner of both house and cell phones, I feel violated by solicitation calls of any kind, including companies that I do business with. I should not be interrupted with unwanted telephone calls at all hours of the day or evening. Please do not weaken Indiana's Telephone Privacy Law by giving in to these companies whose only wish is to harass and profit from their unwanted solicitation.
